2. Claims 1, 3, 5-9, 12-17, 19-23 and 26-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Anderson et al., for reason cited in previous actions.

4. Even if the approximate solids contents in Table A of Anderson et al. were in reference to the formulations prior to their admixture, the Table also provides a general dosage range and a preferred dosage range, both of which still correspond to solids contents percentages/ratios for the components that are consistent with the ranges applicant is claiming.

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
